Fix list, ranked by impact

#	Fix	Effort	Why it matters
1	Add a flexible rate plan (free cancellation up to 48 hours before arrival) alongside the non-refundable rate.	Low	Flexible rates convert better and are favoured in OTA sorting.
2	Join Booking.com Genius (level 1, 10% discount) and review results after 60 days.	Low	Genius listings get a visibility boost and a badge for frequent travellers.
3	Rewrite the description to 600+ characters: distance to beach/CBD, free parking, room features, check-in hours and nearby attractions.	Low	Fuller descriptions answer guest questions and lift conversion.
4	Add 26 more photos: every room type, bathroom, exterior at dusk, parking, pool, and the nearest beach or landmark.	Medium	Photo count is a direct input to Booking.com search ranking and click-through.
5	Reply to every review, negatives within 48 hours (the Review Responder agent drafts these for approval).	Low	Responses signal an active host and lift review-driven conversion.
6	Tick every facility you actually offer in the extranet (parking, air conditioning, fridge, kettle, laundry, BBQ, family rooms).	Low	Facility filters hide listings that do not declare them.
7	Fix the two most-mentioned complaints in recent reviews, then ask happy guests to review at checkout.	High	Score is a top ranking factor and sets price power.

Direct-booking funnel

Priority	Issue
High	Direct-rate parity not checked: we need the link to your online booking page to confirm booking direct is cheaper than the OTAs.
Medium	Title/H1 do not mention Mooloolaba. Use e.g. 'Coral Sands Motel | Motel in Mooloolaba'.
Medium	No meta description. Add 140-160 characters naming location and a reason to book direct.
Medium	No schema.org LodgingBusiness/Hotel markup. Add JSON-LD with name, address, geo, priceRange and aggregateRating.

> **What Full House would do in your first 30 days:** fix the top 3 listing issues, reprice against these 10 competitors weekly, answer every review within 48 hours, and send you a one-page report each Monday with three actions. **No-ROI-no-fee:** if revenue at day 60 and day 90 is not above the same period last year (adjusted for rooms and closures), you don't pay for that period.
